

HowStuffWorks Express

ASK MARSHALL BRAIN: WHAT IS NOTHING?

Lesson Plan

Overview:

This activity will teach students about the concept of nothing.

Curriculum Areas:

Science, Technology, Reading and Writing

Objectives:

The main objective of this reading is for students to understand the scientific explanation of nothing.

Implementation Ideas:

With the printed publication, students can independently complete this assignment.

Assessment:

A student worksheet - designed to assess reading comprehension - and the teacher key are provided online.
